Hello Yuchen,

You have been granted access to the linked Explorys/MarketScan therapeutic dataset. To adhere to HIPPA regulations, you must access this data through a separate VDI account. Since you may have 2 separate VDI accounts now, we ask that you be extra mindful about logging out of the VDI when you are done using it. To ensure you're properly logging off the VDI, please double click the "logoff" icon located on the VDI's desktop. Doing this on a regular basis will prevent you from having multiple open sessions and will help keep our servers running smoothly.

Below are the credentials for your CED specific account as well as the links to view/download the instructions for accessing the IBM-Explorys virtual workbench (VDI), the SuperMart connection and data guides, file transfer instructions, the entity relationship diagram and explanation:

VDI Documentation: https://ibm.box.com/v/Explorys-VDI-Auth-Guide

SuperMart Documentation: https://ibm.box.com/v/ibm-explorys-supermart-guides

SFTP File Transfer Documentation: https://ibm.box.com/v/ibm-explorys-sftp-guides

Schema Access Read Only: SUPERMART_225 (CED)

Schema Access Read/Write: SANDBOX_CED_WH_GOVHHS_OPIOID

Your Explorys VDI credentials are as follows:

User name: yuchen.li.225

Password: Ja6u5v3H

Again, please do not reply to this email. If you have any questions or need assistance with your new account, send a new email detailing the issue to customer.support@us.ibm.com

Thank you,
